KST Roofing Solutions Skylight™ Restoration Coating

Helps to restore panel clarity to increase ambient light value

PART NUMBER	SALES NUMBER	COLOR/SIZE
KST01900-20	009920984	Clear 5 Gal.

Fiberglass skylight BEFORE. Raised reinforcement fibers indicate age. Restore with KST Roofing Solutions™ Skylight™ Restoration Coating.

Apply KST Roofing Solutions™ Skylight™ Restoration Coating to fiberglass skylight to help improve light value within building structure.

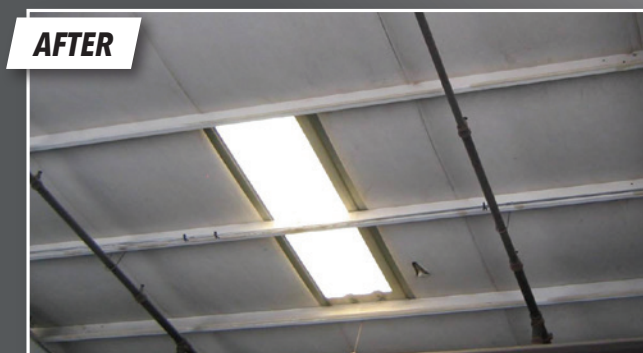

CLEAN fiberglass to remove weathered reinforcement fibers and prepare surface for KST Roofing Solutions™ Skylight™ Restoration Coating application.

Coating will remain milky in color for up to 3 days and will dry high-sheen clear.

Cleaning assists in eliminating raised reinforcement fibers and provides a clean and smooth surface ready for application.

Fiberglass skylight AFTER. Fiberglass is now restored with KST Roofing Solutions™ Skylight™ Restoration Coating.

***Be careful when working around skylights as the skylight material may not support your weight, and you could fall.**
