

Silicone Clean-up

Sherwin-Williams Mineral Spirits R1K4 Re: Silicone Clean-up

When cleaning sprayers or sprayer hoses after using silicone roof coatings it is recommended to use one of two products with Sherwin-Williams Uniflex and Kool Seal silicone products:

Sherwin-Williams Mineral Spirits R1K4

Product #	Sales Number	Container Type	Container Size
R1K215	1548759	Metal Can	1 Gallon
R1K215H	1542323	Drum	55 Gallon
R1K215E	1542331	Metal Pail	5 Gallon

Sherwin-Williams VM&P Naptha R1K3

Product #	Sales Number	Container Type	Container Size
R1K217	1548700	Metal Can	1 Gallon
R1K217H	1542349	Drum	55 Gallon
R1K217E	1542356	Metal Pail	5 Gallon

Recommended Hose Cleaning process

Clean tools and equipment with VM&P Naptha or **100%** virgin (*does not contain water*) mineral spirits. Flush the coating out of the lines with VM&P Naptha or mineral spirits. Flush the hoses with approximately 10 to 15 gallons of solvent during the initial flush. Flush until the cleaning fluid appears with the same clarity as the new unused cleaner being used. and then complete a second flush with 10 to 15 gallons of clean solvent.
