

UNIFLEX®
Fluid Applied Roofing Systems

MORE SEASONS. MORE PROTECTION.

When it comes to roof repair, Uniflex™ has you covered.

See reverse side for product information.

Whether it's rain, ice or snow, Uniflex® roofing products provide a flexible, watertight seal for year-round protection that extends the life of your roof.

One Flash™ Permanent Roof Repair Sealant

FEATURES AND BENEFITS:

- Single-step application for reduced labor time
- No fabric reinforcement required*
- Easy application by brush or caulking gun
- Excellent adhesion to multiple substrates
- Remains flexible and strong
- Holds up to standing water
- Can be recoated by traditional acrylic and silicone roof coatings
- Available in Gray or White

*No fabric or tape needed for gaps less than 1/8".

Silicone44® and Silicone22™ Rubberized Roof Coating

FEATURES AND BENEFITS:

- Ponding water resistance
- Excellent flow and leveling
- Exceptional permeability rating of 7.2 perms aids in breathability, which helps prevent blistering
- UV resistance with bright white reflective finish helps lower cooling costs
- Superior dirt pickup resistance allows for the coating to stay cleaner, longer
- Outstanding adhesion to most roofing materials

MS Hybrid Roofing Sealant

FEATURES AND BENEFITS:

- Applies, adheres and cures underwater
- Two-products-in-one lap adhesive and scrim edge sealant
- Remains flexible and will not shrink during curing
