

TRANSFORM YOUR ROOF WITH SUPERIOR PROTECTION

Silicone44™ is a 100% silicone roof coating ideal for superior waterproofing performance, preventing leaks and surface damage caused by standing water.

Excellent flow and leveling • Ponding water resistance • Easy to apply

Easy Application

Smooth flow and leveling combined with excellent adhesion to most roofing substrates make application fast and simple.

Extend Roof Life

With an exceptional 4 perm rating, Silicone44™ is a great way to extend roof life in a variety of colors.

Design & Safety

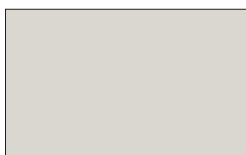

Create custom logos and safe walkways that stand out.

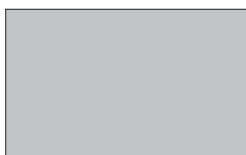

Ponding Water Protection

The premium silicone coating forms a seamless, flexible membrane that protects low-slope and moderate-slope roofs from costly deterioration.
