

NEW! Sprayable One Flash™ Roof Repair Sealant

Speed up roof repairs without sacrificing performance

We're expanding the One Flash™ family with a high-performance sprayable option. You get the flexible flashing-grade roof sealant you trust, now optimized for improved application speed.

Single-step application for reduced labor time

No fabric reinforcement required for gaps less than 1/8"

Options designed for spray, brush and caulking gun application are available.

Excellent adhesion to multiple substrates

Can coat and be topcoated with traditional acrylic and silicone roof coatings.
